## FULL-STACK ENGINEER

Experienced with building greenfield full-stack JavaScript applications.  
Skilled at writing clean, testable, efficient code using current best practices.  
Dedicated to learning and remaining up to date with recent coding frameworks and advances.

---

## KEY SKILLS

**Front End:** JavaScript, React, GraphQL, Apollo Client, Redux, jQuery, HTML, CSS

**Back End:** Node.js, Express, GraphQL, Apollo Server, MongoDB, Mongoose, Passport, bcrypt, Heroku, REST

**Workflow & Testing:** Jira, Git, GitHub, Webpack, Travis CI, Docker, Cypress, Mocha, Chai, Enzyme, Jest

---

## EXPERIENCE

**Consultant:** 02/2018 – 05/2020

**Technical Reviewer - The GraphQL Guide** 03/2020 – 05/2020

- Provided feedback to the authors on approachability, bugs, and comprehension
- Learned GraphQL and Apollo

**QA Engineer** 10/2018 – 07/2019

- Developed over two hundred E2E tests using Cypress for a complex internal web app with multiple permission levels, and access to different, dynamic data sources
- Coordinated with the team through Slack and JIRA to prioritize and classify user stories to test

**Web Developer** 02/2018 – 04/2018

- Researched new tax law and developed tax calculation software that calculated how much money small businesses might save with the new regulations

**The Coding Space:** 12/2017 – 08/2019

**Curriculum and Web Developer**

- Designed and implemented curriculum materials, and taught the use of Scratch, Woofjs.com, and JS Bin working environments
- Used the Socratic method to guide students through troubleshooting and developing their projects.

**Camp Director (Spring and Summer)**

- Trained and guided a team of counselors in the use of the socratic method to help our campers tackle challenging programming projects
- Supervised the safe conduction of our attendees on field trips to corporate tech offices and on daily outdoor activities

**Johns Hopkins:** 05/2009 – 05/2016

**Clinical Laboratory Scientist**

---

## EDUCATION

Thinkful

**Full-Time Web Development Intensive**, 06/2017 – 10/2017

- Daily lectures, exercises, pair programming, and group projects with the #1-rated webdev bootcamp
- Learned HTML5, CSS3, JavaScript, jQuery, Node.js, React, Redux, algorithms and data structures
- Used Node, Express, Mongo, React, and Redux to create 3 different applications

University of Maryland, School of Medicine

**B.S. Degree in Medical and Research Technology**, 05/2009
